

While we make every effort to ensure that the information presented on this website is error-free, errors may occur. We ask that you notify us immediately of any errors that you discover in our data. We will make every effort to correct them.

Boundaries are approximate. Multiple regulations may apply at once, and regulations cited on this website may not be up-to-date. Users are responsible for being aware of the latest regulations. Any regulatory summaries provided on this website do not represent the United States Government's construction or interpretation of the regulations and may not be used for enforcement and compliance purposes.

With respect to documents, databases, regulatory citations, and other information available on this website, neither the United States Government nor any of its employees, makes any warranty, express or implied, including the warranties of merchantability and fitness for a particular purpose; nor assumes any legal liability or responsibility for the accuracy, completeness, or usefulness of any information, apparatus, product, or process disclosed; nor represents that its use would not infringe privately owned rights. The views and opinions of authors expressed on this web site do not necessarily state or reflect those of the United States Government.

The appearance of external links on this web site does not constitute endorsement of external web sites or the information, products, or services contained therein by the Department of Commerce/National Oceanic and Atmospheric Administration/National Ocean Service/Marine Protected Areas Center. The inclusion of the NOAA logo on this website reflects NOAA's role in providing MPA boundary data and collaborating with ProtectedSeas.net to expand geographic and program coverage of MPA boundaries and attributes, but does not indicate NOAA endorsement of the presentation or summary of this data set or associated regulatory summaries.

The data on this website does not represent and should not be construed to represent any agency determination, view, or policy.
